WORK EXPERIENCE

Full-Stack Developer Apprenticeship

Le Vieux Monastère • Sept 2022-today

- Oversaw the complete redesign of the company's website.
- Development of an internal booking and contract management application.
- Implementation of a secure internal network for enhanced data protection.

Junior Developer Internship

Orange • June 2022 • 5 weeks

Developed internal application for performance oversight of Orange's technical teams.

- Utilized Visual Basic and Excel macros to develop the application.
- Meticulously managed extensive databases, prioritizing security and reliability.
- Empowered Orange team leaders to effectively track performance and address productivity or customer service issues promptly.

International Experience

2019-today

Born and raised in Mexico until the age of 19. Since I was a kid, my ambition was to study and work in France, yet I lacked a clear path to make it happen.

In 2019, fueled by determination, I took the leap and relocated to France to actively pursue my long-standing aspiration. Since then, I have been getting closer into reaching this goal, with unwavering focus and consistency every single day.
